-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

Claims 14-28 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/07/2005.

***Specification***

The disclosure is objected to because of the following informalities: In the second paragraph the term "She" was used twice and should be replaced with the term --they--.

Appropriate correction is required.

The disclosure is objected to because of the following informalities: In line 16 of page 2 the term "is" should be --it--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bonk USPN 3,986,479.

Bonk discloses a wipe dispenser comprising:

(Re claim 1) "a web, the web containing a plurality of pre moistened wipes" (17 figure 3). "a container enclosing the web, (1 figure 3) the container having a foramen (12 figure 7)". "a threader ... for pulling a wipe through the foramen" (6 figure 3).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 rejected under 35 U.S.C. 103(a) as being unpatentable over Margulies USPN 4,462,507 in view of Bonk USPN 3,986,479.

Margulies discloses a wipe dispenser comprising:

(Re claim 1) "a web, the web containing a plurality of pre moistened wipes" (line 19-21 col 1). "a container enclosing the web, (line 18 col 1) the container having a foramen (44 figure 8)".

(Re claim 2) "a hole". (Top portion figure 8)

(Re claim 3) "a canal connecting the foramen to the hole" (Slit figure 8)

(Re claim 4) "the hole is ovular" (Top portion figure 8)

(Re claim 7) "a cap, where the foramen and the hole are contained within the cap". (14 figure 30)

(Re claim 8) "the cap has a lid". (32 figure 31)

Margulies does not disclose having a threader or any aspects of a threader.

Bonk teaches the use of a threader (6 figure 3) to pull a wipe through the dispensing opening of a wipe dispenser, wherein the threader has a first end and a second end and the first end has a snag (31 figure 8) attached to it and the second end is a handle (30 figure 8). It would be obvious to one skilled in the art to use a threader with the dispenser of Margulies to facilitate ease of feeding through the feed slot upon first use as taught by Bonk.

***Allowable Subject Matter***

Claims 9-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USPNs 4,337,876 and 3,973,695.
